

Peer coaching reelection

My peer's name was JohnMark Ezvaldo and his goal was to start a movement to rise against global warming..we met on thursday 21st 2024 at 6.30pm. The meeting was in-person,(nation centre city hub).

My peer was amazing and I did not feel anxious at all because we met at the karibu ceremony and we were even grouped together for fun questions.

The session was really helpful, I got to interact with peer and share ideas. We also advised each other on how to improve ourselves in some areas.

Yes, I made a commitment to help my peer in communication skills.He also made a commitment to help me improve my time management skills.

The experience was awesome, he was really full of wisdom and I really enjoyed having a conversation with him.He was also patient, like he would ask you to take your time and think about something before answering.
